

Usage notice:

The DWG-1000 transmits wireless signals and should only be used as instructed. Failure to use as instructed could expose the user to higher levels of radio emissions, even though the transmission levels of the DWG-1000 are low. The user should in no way try to alter the radio settings as provided by Brace Audio. Changes or modifications not expressly approved by Brace Audio could void the user's authorization to operate the equipment.

This product is intended for indoor use only, in that outdoor use may be in violation of local or country usage restrictions. Consult your local rules regarding outdoor use before using product outdoors.

Product Support: For Technical Support or for help not available in this manual, see the brace audio website at www.braceaudio.com

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**This Class B digital apparatus complies with Canadian ICES-003.
Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.**

FCC Notice (United States):

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a commercial installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Industry Canada Notice (Canada)

This Class B digital apparatus complies with Canadian ICES-003.
Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

CE Notice (European Notice):

The Conformité Européenne symbol found on this product indicates compliance to the EMC Directive and the Low Voltage Directive of the European council Directives 1999/519/EC, 2006/95/EC, 2004/108/EC and 1999/5/EC, listed below:

EN 300 328 V1.7.1 (2006-10), EN 301 489-1 V1.7.1 (2007-04), EN 301 489-17 V1.3.2 (2008-04), EN 60065:2002 + A1:2006, EN 50392:2004
